

§ 738.73 One document and one license to cover several products.

(a) A license may be issued for the storage of two or more agricultural products in a single warehouse. Where such license is desired, a single application, inspection, bond, record, report, or other paper, document, or proceeding relating to such warehouse shall be sufficient unless otherwise directed by the Service.

(b) Where such license is desired, the amount of the bond, net assets, and inspection and license fees shall be determined by the Administrator in accordance with the regulations applicable to the particular agricultural product which would require the largest bond and the greatest amount of net assets and of fees if the full capacity of the warehouse was used for its storage.

§ 738.74 Amendments.

Any amendment to, or revision of, the regulations in this part, unless otherwise stated therein, shall apply in the same manner to persons holding licenses at the time it becomes effective as it applies to persons thereafter licensed under the act.
